Reprints of Special Section Available in Pamphlet Form

There is so much basic information about fire department administrative problems in the October issue that we feel our readers will like to have it in pamphlet form, readily available for quick reference. Therefore, we have reprinted the articles bearing the firehouse symbol at the start of each article. They are all contained in a 24-page pamphlet which you can order.

This pamphlet contains the arcicles on locating fire stations, designing fire stations, writing specifications for apparatus, determining manpower needs and preparing department budgets. Written by authors who are highly knowledgeable about their subjects, these articles rate a permanent place in your fire service library.

Reprinted in one pamphlet, they can be readily available when questions arise that they can answer.

Prices for the pamphlets, according to the number ordered, are as follows:

1 to 10 copies	$2.00 each
11 to 50 copies	$1.50 each
Over 50 copies	$1.00 each
